— **experience**

03/2023 - 02/2024 **Software Engineer**, [Cenomi](#), Saudi Arabia

- developed catalog management system (Go microservices)
- rewrote legacy Python codebases to Go, improving performance

04/2022 - 09/2022 **Software Development Engineer**, [MyCujoo](#), Netherlands (remote)

- developed data ingestion system (Go microservices)

07/2021 - 02/2022 **Senior Software Development Engineer**, [DANA](#), Indonesia (remote)

- developed financial transaction system (Go microservices)
- added OpenTelemetry to the stack, improving observability
- built API integration with nationwide COVID-19 tracing system (Go)

08/2020 - 06/2021 **Freelancer**

- mostly using Go, some of the projects worked on:
- unikernel CLI orchestrator github.com/nanovms/ops
- container vulnerabilities scanner github.com/aquasecurity

06/2020 - 08/2020 **Senior Backend Engineer**, [ProSpace](#), Singapore (remote)

- maintained room booking system (Go monolith)
- initiated transition to microservices

12/2018 - 08/2020 **DevOps and Data Engineer**, [SpaceStock](#), Indonesia

- set up and maintained cloud infrastructure (AWS) with CI/CD (CircleCI)
- built data pipeline (MongoDB to BigQuery via Airflow) from scratch
- initiated internal tools for ChatOps and bug reporting via Slack (Go)

09/2017 - 10/2018 **Senior Web Developer**, [Cartenz Technology](#), Indonesia

- developed tax management dashboard (Laravel) and its webserver (Play! framework)
- set up CI/CD (Azure), improving development velocity

— **education**

2013 - 2016 **Bachelor of Information Technology**, [University of Newcastle](#), Singapore

2007 - 2008 Science Stream, Meridian Junior College, Singapore
recipient of ASEAN Scholarship

— **skills**

<i>core</i>	Go (contributed several patches), Linux, git, PostgreSQL/SQLite
<i>languages</i>	Python, Java, bash, TypeScript, Rust
<i>databases</i>	MySQL, MongoDB, Redis, various KV databases
<i>cloud</i>	AWS, GCP, Azure
<i>deployment</i>	Docker, Kubernetes, CircleCI, Argo CD, Terraform, Jenkins
<i>distributed</i>	Kafka, Flink, Airflow, Prometheus, Grafana, Elasticsearch, OpenTelemetry
