

- experience

Mar 2023 - Feb 2024 **Software Engineer, Cenomi, Saudi Arabia**
- catalog management system: microservices in Go (gRPC) with Pub/Sub, deployed with Kubernetes on GCP

Apr 2022 - Sep 2022 **Software Development Engineer, MyCujoo, Netherlands**
- data ingest: microservices in Go with Kafka, deployed with Kubernetes on GCP

July 2021 - Feb 2022 **Senior Software Development Engineer, DANA Indonesia**
- financial transaction system: microservices in Go backed by Apache Flink Stateful Functions and Kafka, deployed with Kubernetes
- API integration with nationwide COVID-19 tracing system in Go

Aug 2020 - Jun 2021 **Freelance**
mostly using Go, some of the projects worked on:
- unikernel CLI orchestrator github.com/nanovms/ops
- container vulnerabilities scanner github.com/aquasecurity
- blockchain github.com/0chain
- DNN github.com/gorgonia/cu

Jun 2020 - Aug 2020 **Senior Backend Engineer, ProSpace, Singapore (remote)**
- REST API: monolith in Go, initiated migration to microservices

Dec 2018 - Aug 2020 **DevOps and Data Engineer, SpaceStock, Indonesia**
- cloud infrastructure: for microservices on AWS with CI/CD pipeline on CircleCI
- data pipeline: MongoDB to BigQuery with Apache Airflow
- internal tools for ChatOps and bug reporting via Slack

Sep 2017 - Oct 2018 **Senior Web Developer, Cartenz Technology Indonesia**
- tax management dashboard: in Laravel
- REST API: Play! (Java) framework
- CI/CD pipeline: on Azure

- education

2013 - 2016 **Bachelor of Information Technology**
University of Newcastle, Singapore

2007 - 2008 **Science Stream, Meridian Junior College, Singapore**
receiver of ASEAN Scholarship

- skills

core Go (contributed a [small patch](#)), Linux, git, PostgreSQL/SQLite
languages Python, Java, bash, PHP, TypeScript, Rust
databases MySQL, MongoDB, Redis, various KV databases
distributed Docker, Kubernetes, KrakenD, NSQ, Apache Flink, Kafka

- talks

2020 **Ordered Advance: Transforming Raw Data into Information**
Facebook Developer Circle Malang

2020 **Interfaces in Go**
Ngalam Backend Community

2021 **Technological Advancement and the Case for Innovation Technology**
Euphoria 2021
